many books on database management systems dbms are available in the market they are incomplete very formal and dry my attempt is to make dbms very simple so that a student feels as if the teacher is sitting behind him and guiding him this text is bolstered with many examples and case studies in this book the experiments are also included which are to be performed in dbms lab every effort has been made to alleviate the treatment of the book for easy flow of understanding of the students as well as the professors alike this textbook of dbms for all graduate and post graduate programmes of delhi university ggsipu rajiv gandhi technical university uptu wbtu bput ptu and so on the salient features of this book are 1 multiple choice questions 2 conceptual short questions 3 important points are highlighted bold faced 4 very lucid and simplified approach 5 bolstered with numerous examples and case studies 6 experiments based on sql incorporated 7 dbms projects added question papers of various universities are also included

the european conference on technology enhanced learning ec tel 2008 was the third event of a series that started in 2006 the two first editions were organized by pro learn prolearn project org a european network of excellence in 2008 several members of kaleidoscope the other european network of excellence noe kaleidoscope org pub joined as co chair committee members reviewers and authors these two networks are no longer funded but our aim was to turn ec tel into a sustainable series of high quality events and thereby to contribute to the scientific landscape of technology enhanced learning a new network named stellar will be launched in 2009 with members from both existing networks as well as new members and will support the future editions of this conference the scope of ec tel 2008 covered the different fields of learning technologies e cation psychology computer science the contributions in this volume address the sign of innovative environments computational models and architectures results of empirical studies on socio cognitive processes field studies regarding the use of te nologies in context collaborative processes pedagogical scenarios reusable learning objects and emerging objects groups and communities learning networks interaction analysis metadata personalization collaboration scripts learning adaptation collabo tive environments resources tangible tools as well as learning management systems

critical care ultrasound manual is a concise step by step guide on the assessment of

ultrasounds it trains critical care physicians in applying rapid assessment by cardiac echo
race and focused assessment with sonography in trauma fast to sonography principles
animated video clips of procedures assist the reader in comprehending the content
covered in the manual focus on helping readers obtain rapid practical information to assist
management decisions user friendly layout explanatory diagrams ultrasound images
enhance the learning experience dvd showing video clips of procedures cross referenced
in the book practical tips and cautions are highlighted in boxes mcqs on each chapter allow
readers to analyse what they ve learnt the appendices provide a checklist to assist
interpretation of transthoracic echocardiogram in a systematic way and a chapter on
doppler principles for those who wish to prepare the way for doppler measurements

ocr psychology third edition is endorsed by ocr for use with the ocr as psychology specification this book prepares students for all elements of the ocr psychology as exam it covers both research methods and core studies giving the who what where and even the why of each study it also looks at some of the work that followed the studies key features of the book include psychological investigations the first chapter of the book helps students to understand research methods in psychology useful support for the psychological investigations exam and for understanding the core studies themselves core studies each study is described first in a nutshell followed by a detailed account of the aims method results and conclusions guidance is given on how each study can be evaluated and a wealth of extra materials is provided for each study questions to assess understanding practical activities multiple choice and exam style questions further reading and video links background to each core study is included in the starters and afters features information about related research before and after the study and biographical details of the researcher s approaches perspectives issues and methods are considered in a brand new chapter to cover the themes of the course and prepare students for the long answer questions on the core studies exam exam guidance each chapter ends with short and long answer exam style questions answered by students with teacher feedback the book is presented in colourful and well structured magazine style spreads to aid the learning process this 3rd edition has been completely revised and is now accompanied by a companion website featuring an extensive range of online resources for both teachers and students including answers to the questions posed in the book glossary flash cards and multiple choice test banks
